

Our Services

We are a full-service entity for both small-to-medium sized businesses, single proprietors, or individuals. We provide the following services:

- Accounting and Bookkeeping
- Tax Consulting and Preparation
- I-Managed Self-Service and Managed Payroll Services

- Audit and Reconciliation
- Feasibility Studies and Business Registrations

- Accounting Software Development, Training, Implementation and Deployment

Accounting Software Development, Implementation and Deployment will be provided by our partner, One Net Avenue Systems Inc.

Huge corporations, in streamlining their operations, have outsourced some of their business functions. Outsourcing is the most cost-efficient option to remain competitive. Bookkeeping and payroll are the most outsourced business functions. Now, you as the business manager and/or owner can allocate your human and financial resources better.

- Set-up and organization of your accounting system
- Training and assistance with your accounting software
- Preparation of or recommendation for a chart of accounts
- Accounts payable processing and disbursements
- Accounts receivable processing and collections
- Sales tax calculation and remittance
- Bank reconciliations
- Financial statement preparations
- Budgeting and forecasting
- Cash flow forecasting

Starting a new business?

Now is the perfect time to call us and we can help you with your State and Federal registration, selection of your form of legal entity, and setup your accounting system! Depending on your prior knowledge, we can perform as many or as few bookkeeping/accounting functions as you need. Just contact us for more information.
