

Will I get a copy of the return for my own files?

Yes. We will send you a copy of your return to review and approve before we e-File it for you. After you have approved release of your tax return, and returned your IRS E-File Signature Authorization Form 8879 to us, we will e-File your return. If you wish to go entirely paperless, we can email you a PDF copy of the e-Filed return instead.
